BACK IN 5 MONTHS!

This 18-month agreement means we're back at the negotiating table in July this year—just 5 months away. We get wage increases now and the opportunity to negotiate a stronger agreement sooner, with better preparation and member mobilisation.

Traditional 3-year agreements would have us waiting until 2028

18 months gives time to continue to build member engagement and bargaining power

New leadership team learns, prepares, mobilises for stronger 2026 campaign

Use this agreement as platform, not endpoint

Compare to alternative: vote no, extended uncertainty, return to same negotiations without having moved forward
